

Mahmud Hasan

AI Engineer | COO, Craftly | Founder & CEO, Aeitron AI

Location Barishal, Bangladesh **Email** mah5472651@gmail.com **LinkedIn** linkedin.com/in/mahmudhasan-ai-engineer **GitHub** github.com/mah5472651

SUMMARY

High-growth AI Engineer and Operator bridging the gap between advanced research and production-grade AI systems. Serving concurrently as the COO of Craftly (building a frontier LLM) and Founder & CEO at Aeitron (engineering multi-agent automation workflows for high-ticket sectors like real estate). Specialized in multi-agent orchestration, advanced memory architectures, cybersecurity intelligence, and high-performance RAG pipelines. Proven track record of leading cross-functional engineering teams to build globally competitive AI technology from Bangladesh.

EXPERIENCE

Chief Operating Officer (COO) · Craftly 2026 – Present

- Chief Operating Officer at Craftly: Leading operations at an elite AI startup dedicated to building proprietary frontier intelligence from scratch.
- Specialized Model Training: Developing custom AI models optimized specifically to automate and accelerate app development using Flutter and Node.js.
- Advanced AI R&D: Architecting domain-specific LLMs and developer-focused tools to streamline complex software engineering lifecycles.
- Global & Local Scalability: Designing cutting-edge AI systems engineered to impact and scale within both the Bangladeshi and global tech ecosystems.

Founder & CEO · Aeitron AI 2026 – Present

- Founded Aeitron: Built and scaled a premier AI Automation agency from the ground up, delivering intelligent enterprise solutions.
- Engineered Workflows: Designed advanced multi-agent workflows and automations utilizing n8n, Make, and Claude Code.
- Architected AI Systems: Deployed full-stack AI integrations and tailored systems to optimize complex business operations.
- Targeted Niche Expertise: Streamlined lead management and operations, specializing in high-impact solutions for the real estate sector.

SELECTED PROJECTS

Aeitron (Agentic AI Architecture) · github.com/mah5472651

- Frontier AI Architecture: Architecting advanced systems engineered specifically for autonomous agentic coding and core cybersecurity operations.
- Autonomous Software Creation: Enabling self-directed software development by integrating deep reasoning, persistent memory structures, and tool execution.
- Cyber Defense Intelligence: Developing highly specialized AI capabilities focused on threat detection, vulnerability analysis, and security intelligence.

Aeitron AI Finance Dashboard · github.com/mah5472651

- Unified Agency OS: Engineered a comprehensive enterprise dashboard unifying finance tracking, automated invoicing, CRM, and team management tools.
- AI Copilot & Real-Time Analytics: Integrated an AI business assistant providing real-time operational analytics and automated pipeline tracking for real estate leads.
- Premium Frontend Stack: Developed a highly responsive, minimalist, and scalable UI from scratch using React, Vite, TypeScript, and Tailwind CSS.

SKILLS

Artificial Intelligence

Agentic AI, Multi-Agent Systems, RAG, Prompt Engineering, AI Architecture Design, LLM Systems, Autonomous Agents, Memory Systems, Evaluation Frameworks, MCP

Programming

Python, JavaScript, C++, C, CUDA, Node.js, Flutter

Backend & APIs

FastAPI, REST APIs, Authentication Systems, API Integration

AI & Data

Vector Databases, Embeddings, Dataset Engineering, Model Training Pipelines, Context Engineering

DevOps & Tools

Git, GitHub, VS Code, Antigravity, Cursor, Claude Code, Codex, Docker

Cybersecurity

Secure AI Systems, AI Safety, Verification Pipelines, Security-Focused Agent Design

EDUCATION

Higher Secondary Certificate (HSC)

Govt BM College
Science Group
Expected Completion: 2028 · Expected GPA: 5.00

Secondary School Certificate (SSC)

Baghia Al-Amin Kamil Madrasah
Science Group
Completed: 2026 · GPA: 5.00

LEADERSHIP

- COO, Craftly AI Startup
- Team Operations Management
- Product Strategy & Engineering Coordination
- Startup Community Building
- Bravian Youth, Frontline Counsellor
- Dreams On The Way, Convener

ACHIEVEMENTS

- 76+ GitHub commits across active AI projects with a continuous development workflow
- Authored production-grade AI architecture documentation from scratch
- Built real-world AI startup initiatives while completing formal education (Craftly)
